Topics

Term 1 - Earthrise

This topic explores the photograph Earthrise taken by a NASA astronaut called William Anders. We will learn about our solar system and we will use the photograph as inspiration to create other forms of artwork.

Term 2 - Earthquakes and Volcanoes

This term will be looking at the geography of plate tectonics and the science of rock types. Children will learn about specific volcanic eruptions and the effects of volcanoes and earthquakes to various regions. The children will make their own volcanoes and design a disaster proof house.

Term 3 - Land of the Free

This term will involve a case study on America. Children will look at the history of how and when America was founded; it's geography and investigate the culture, both past and present.

Term 4 - We are Crime Scene Detectives

In this term children will explore the science behind solving crimes and perform experiments to deepen the children's knowledge. They will investigate a crime at school and collect evidence. They will use their knowledge to apply to their story writing.

Term 5 - Beliefs

This topic will be an exploration of beliefs throughout history. We will learn about ancient civilisations and religious festivals. We will touch upon historic events both locally and globally.

Term 6— Balloon Blaster

This design and technology topic will explore different mechanisms. Children will have the chance to design their own contraptions and inventions throughout the term.
